

## *My Star Report*

Joran Van der Sloot

According to internet resources VDS was born August 6, 1987. There's no actual time of birth available so I'm using 12am as a time. He was born in Arnhem, Netherlands.

1<sup>st</sup> house of course he is a Leo with Venus at 8 degrees, Sun at 12 degrees, and Mars at 19 degrees. Right away of course we recognize there's a lot of ego here. Leo is ruled by the sun, the sun rules ego and we have Mars here also and Mars carries with it a lot of ego energy. With Venus in the same house we can definitely determine this person is attractive, self confident, and when we add that he is a Taurus rising we can definitely say people are attracted to him, and when he wants to do something he doesn't wait for it, he just gets up and does it. This is the Mars energy and since it's amplified by the Sun's energy we can definitely say this guy does as he pleases without asking. I say "does as he pleases" because of the presence of Venus here. Venus is a planet that rules desire, comforts, those things we find enjoyable, pleasurable, what we value materially, sometimes these are things we guard or hoard. Okay, I'm not going to get too deep here. I want to highlight the things most relative to May 30 in Peru.

In the 3<sup>rd</sup> house we find an interesting Dragon's Tail. I say interesting first because the 3<sup>rd</sup> house is the thought process, the mind, how we think and how we communicate. And the Dragon's Tail here in the 3<sup>rd</sup> house of how we think is sometimes a very negative energy. VDS is a Libra in the 3<sup>rd</sup> house so with the Tail of the Dragon here we can say that VDS came into this life with a natural understanding of the legal system and how it works. In other words, he is able to easily understand and interpret law if he applies himself, and studies it. This would have been an easy class for him in school for instance. Where others in the class might have struggled with the subject, VDS just breezed through it. Having the Tail here also makes it easy for him to be stung by the legal system, so it works both ways. He may easily understand systems, legal systems, legal processes to his advantage but the Tail here gives him the opportunity for him to sabotage himself. Being in the 3<sup>rd</sup> house of communication, it's best for him to keep his mouth shut when in trouble with the legal system. This worked for him in the Natalie Holloway case in Aruba and it worked very well. In the end there was nowhere for anyone to take that case because he kept his mouth shut...he wouldn't communicate any truth, leaving the legal system no where to go with the case. In Peru, he opened his mouth, confessed and stung himself, sabotaged himself. The Tail of the Dragon here.

The 4<sup>th</sup> house is what I find very interesting because the 4<sup>th</sup> house shows us how VDS was raised, what his Family life was like, what his upbringing was like and here we find Scorpio with a placement of Pluto. That's right, VDS born in '87 was of the Deathwish generation...Pluto in Scorpio...so was Stephany Flores by the way...Deathwish generation...Pluto in Scorpio. This is the generation that grew up basically in a perpetual identity crisis. Who am I? And What am I to the world? What is my place in the world? What is my purpose? These people have also great power. They have the power to destroy the world or help transform it...it's their choice to make. The deathwish

generation for the most part craves these answers and when they didn't get these answers (so far) they've reacted in violently outlashing ways, from music with screaming lyrics, screaming vocalists, screaming in anguish and frustration to shooting and killing people in their schools. This is the generation that was responsible for the Columbine killings, the Columbine High school mass murder scene in Colorado. Remember the rash of school shootings during that time...1992-1997 we saw a major shift or increase in school shootings. In 1999 the number of school shootings dropped sharply to 1/4<sup>th</sup> the number of shootings from 92-97. Pluto in Scorpio here indicates VDS was raised in a Home/Family of Drama/manipulation/secrets/possibly organized crime/gambling. Pluto in Scorpio also rules Power/Sex/Money/Corruption/Death. This would have an incredible impact on what a child considers to be normal behavior and would shape the natives belief system, especially for VDS as he is a Cancer in the 12<sup>th</sup> house. The 12<sup>th</sup> house rules the belief system, and as a Cancer there we can look to the house Cancer rules – the 4<sup>th</sup> house – to see what type of environment shaped his early belief system. Remember VDS is only 22 years old, he's still very young and hasn't had much time to form his own opinions based on world experience yet. His father just recently passed away and now VDS will have his chance to explore the world and form his own opinions...but I don't think he's going to have an opportunity to do that in any sort of normal way. He'll do it from a jail cell or he may not have any chance to do it at all if he lives much longer.

In VDS 5<sup>th</sup> house of Love & Romance we see he is Sagittarius. The 5<sup>th</sup> house also rules what we create and rules also leisure, speculation, gaming, gambling, fortune, fame. This combination of course lends to create a personality of someone who loves to travel (Sagittarius/Leisure), fortune and luck with foreigners as Sagittarius rules foreigners and Sag ruled by Jupiter, Jupiter rules luck and opportunity. But it's not so simple because we also find VDS Moon here combust with Uranus, and Saturn is placed here as well. Saturn and Uranus are conflicting planets as Saturn rules limitations, rules, structure, and form – while Uranus rules freedom. Freedom from structure, freedom from limitation, freedom beyond the rules of the dense physical plane we live in. With the Moon combust Uranus there exists a constant need for change, a constant need for new and exciting variety when it comes to Love and Romance and Sex. Combust just means two objects occupy the same orb and Uranus and the Moon here are both at 23 degrees, right on top of each other. Saturn indicates a need for control. Again, the Moon is the need, Saturn rules control. Saturn in the 5th house would also indicate difficulty and losses making speculations or gambling and difficulty with romantic relationships. With the Moon and Saturn here we can also determine a possible affinity for older women romantically (an authority figure), possibly suppressed romantic feelings toward the mother and with Uranus here, sexual tendencies toward eccentric or unusual practices of sexual tastes. This is a condition also setup in the 6<sup>th</sup> house by way of Neptune.

What really comes to my eye here though is noticing the position of Chiron in the polarized 11<sup>th</sup> house. Chiron is opposite Uranus and opposite the Moon which is an extraordinary energy...intense, even ferocious at times. First, this makes for someone who is extremely sensitive internally. The tense energy channeling between a 5<sup>th</sup> house Moon amplified by the planetary ruler of the 5<sup>th</sup> house (the Sun) and an electrified

Chiron, electrified by the planetary ruler of the 11<sup>th</sup> house (Uranus) takes the emotions and sensitivity of the natives Moon and electrifies it. Keep in mind here Chiron can be very mental as Chiron is naturally associated with 6<sup>th</sup> house Virgo, Virgo being ruled by Mercury, Mercury being mental, the thought process, the mind...and the mind is electrical. The brain works like a very complex electrical circuit, right? The Moon in VDS's chart is combust with Uranus and Uranus is totally electrical. When you overload the mind with electricity or electrical energy you get a potential state of neurosis or an actual state of the native being neurotic. Amplify the opposing Chiron electrically with the natural planetary ruler of the 11<sup>th</sup> house (Uranus) and you have a very unstable situation. Electrically unstable, atomically unstable (on deeper levels), emotionally unstable. The energy becomes so potentially explosive as to become like an atomic bomb waiting to go off. The Moon – Uranus – both opposing Chiron. Intense. On one hand, this person could potentially be an extraordinary healer with a very rare gift to heal the electrical body. If not careful, the energy dives the other way in a negative direction. Now...add mind altering drugs to this equation or condition and things spiral out of control rapidly. Add cocaine and the electrical/mental factor is off the grid. Add psychotropics or psychedelics and the mental factor is off the grid. Psychedelics sets the brain on fire with electricity. Perception is completely altered. It seems that VDS has a cocaine addiction or a problem abusing cocaine. He and Stephany Flores were apparently doing cocaine that night. The picture becomes more clear already. Joran VDS becomes an emotionally explosive neurotic atom bomb.

With Chiron opposing the Moon VDS also has boundary problems. Stephany Flores breached his personal space prying into VDS's secrets, unleashing the Pluto in Scorpio energy he carries with him wherever he makes his home – his Scorpions nest. If ever anyone was in a place they didn't want to be in, she was it. She was there. VDS is very charismatic because of these energies, yes. But underneath that charisma bubbles volcanic, electromagnetic dangers. Literally, psychopathic danger...mental and emotional.

In the 6<sup>th</sup> house we see that VDS's view of the world was to make his fortune deceiving the world. In the 6<sup>th</sup> house he has the POF representing his way to make fortune in this world...conjunct with Neptune, the planet of deceit, also a planet that supports addiction, prisons, institutions. And as a young Capricorn here he would find status and career opportunity deceiving the world for status and money. We saw evidence of this in the news he has extorted money from various agencies and even the Holloway family through deception – to feed his addictions to drugs and gambling. The 6<sup>th</sup> house is also the house of Health and with Neptune here at 5 degrees we can easily determine psychopathic tendencies. What further emphasizes this possible condition of psychopathic tendencies is that Neptune here at 5 degrees squares the Tail of the Dragon in the 3<sup>rd</sup> house at 3 degrees. Again, the 3<sup>rd</sup> house representing the thought process, the mind, how we think. The Tail of the Dragon in this case then becomes a detrimental factor creating constant tension – psychopathic tendencies.

Without getting too much deeper into VDS's astropsychology, there we have it in a nutshell. And as I mentioned in my video for the June 12 New Moon, we seem to have

destiny adding a big influence here. The Head of the Dragon for VDS in the 9<sup>th</sup> house in his natal chart, the Head of the Dragon in the 9<sup>th</sup> house in Stephany's natal chart. And the Head of the Dragon with regard to mundane astrology, world astrology, as it is in Capricorn, as it was that day and the days leading up to this event...in the 9<sup>th</sup> house. Destiny? I also want to mention that conditions I see on May 26 and 27 when the Moon was becoming Full, I see the possibility that VDS and Stephany Flores may have actually met at that time. So on May 30 when all of this took place, I feel it's possible Stephany Flores already knew VDS, knew who he was, and felt she could outsmart him, outwit him. Possibly entrap him for some reward or fame or notoriety. We'll see as the details of this saga unfold in the public forum...but keep that possibility in the back of your mind.

Thanks for watching, I hope you got something out of this. Until next time, Lusk, out.
